HL

SUMMARY

I am a **Microsoft Certified** Power BI developer with over **7 years** of experience focusing on Power BI, Power Automate, Azure DevOps, and Power Apps. I specialize in creating impactful data visualizations and implementing efficient workflows. My strong foundation in Microsoft technologies enables me to enhance business intelligence solutions and streamline processes, making a significant impact in any data-driven environment.

EXPERIENCE

Application Development Team Lead

Accenture

📅 12/2023 - Present 📍 Mumbai

Accenture is a leading global professional services company, providing a range of services and solutions in strategy, consulting, digital, technology and operations.

- Collaborated with clients to gather requirements and provide estimations
- Led a team of 20 and developed approximately 80 Power BI reports
- Created various paginated reports based on client specifications
- Worked on various migration projects and got cross-trained in multiple visualization tools, including QlikView, Tableau, MicroStrategy, and SAP BO
- Worked with various database servers, such as Snowflake, IBM DB2, SQL Server, and Dynamics CRM

Application Development Senior Analyst

Accenture

📅 12/2021 - 11/2023 📍 Mumbai

Accenture is a leading global professional services company, providing a range of services and solutions in strategy, consulting, digital, technology and operations.

- Provided consultation to other projects, helping resolve issues and offering accurate estimations
- Completed development within one month, despite the original timeline of six months
- Managed and delivered two additional projects concurrently during the production phase

Application Development Analyst

Accenture

📅 02/2021 - 11/2021 📍 Mumbai

Accenture is a leading global professional services company, providing a range of services and solutions in strategy, consulting, digital, technology and operations.

- Joined Accenture and quickly took on a leadership role, managing a team of five
- Gathered requirements from both onshore teams and the client
- Assigned tasks to team members and oversaw the development of reports
- Created test cases and validated the reports to ensure accuracy

Software Engineer 1

MAQ Software

📅 07/2019 - 12/2020 📍 Mumbai

MAQ Software is a provider of business intelligence and application development services powered by Azure.

- Developed and maintained approximately 100 reports for Microsoft
- Analyzed existing reports and created mapping documents
- Utilized Azure DevOps to establish CI/CD pipelines
- Built a web application using C# and JavaScript, which was subsequently hosted on Microsoft Azure
